

PENNINGTON CONSERVANCY – 22 March 2020

Dear Members

Sadly, we have decided to postpone the AGM. I don't believe there is anything that is urgent enough to warrant exposing ourselves to the potential risk.

There are however a couple of issues that need to be concluded in the interim. The most important is the nomination of members to serve on the next committee for 2020/21. Normally the deadline would be prior to the AGM however as this meeting is being postponed a new deadline would have to be set. The present committee have their final meeting on Thursday so a decision would have to be made then about dealing with the nominations for the new year.

Please give some very careful thought to playing a role in the Conservancy. Happily, there has been a positive response to the request for volunteers to take up some of the responsibilities outside of the committee structure, but we are still required to have six committee members and to date we only have three nominations.

Attached is the proposed organogram where the various activities are identified with an estimated number of hours required in a given time period. If you are able to assist, your volunteering would be gratefully appreciated.

There is very little certainty at present, but we will do our best to keep everyone informed as things develop.

Kind regards

Mike Lillyman
